

NOTICE OF PROPOSED REVISION TO TITLE V PERMIT

This notice is to inform you that the South Coast Air Quality Management District (AQMD) has received applications for the permit revisions described below and intends to issue a revised Title V permit. The AQMD is the air pollution control agency for all of Orange County and portions of Los Angeles, Riverside and San Bernardino Counties. Anyone wishing to operate, install or modify equipment that could be a source of air pollution within this region must first obtain permits from the AQMD. For certain projects, such as this one, Rule 3006 (Title V) requires publication of a public notice prior to the issuance of a permit.

The AQMD has evaluated the permit applications for the following equipment and determined that the equipment will meet all applicable air quality requirements of our Rules and Regulations.

APPLICANT: ConocoPhillips Company, Carson Refinery
FACILITY ID NO.: 800362
FACILITY LOCATION: 1520 E. Sepulveda Blvd., Carson, CA 90745
FACILITY CONTACT: Kristin Wisdom, Director, Environmental Services
ConocoPhillips Company
P. O. Box 758, Wilmington, CA 90748

The facility is a petroleum refinery which, along with ConocoPhillips' other refinery located in Wilmington, processes crude oil into products such as gasoline, diesel, jet fuel and petroleum coke. The project consists of the installation and operation of two new, 327 brake horsepower, diesel-fueled, internal combustion engines driving emergency fire pumps at the Carson Refinery. This facility will use the best available technology for controlling air pollution. Our calculations show that, based on a 30-day average, a maximum of 0.30 pounds of Nitrogen Oxides, 0.14 pounds of Carbon Monoxide, 0.01 pounds of Volatile Organic Compounds, 0.01 pounds of Sulfur Oxides and 0.01 pounds of Particulate Matter will be emitted from each engine in any one day. In addition, one storage tank was previously issued a non-Title V permit prior to the facility receiving its initial Title V permit. Per Rule 3003, this tank is being noticed herein for official incorporation into the Title V permit.

As required by Title V of the federal Clean Air Act, the AQMD will revise the existing Title V permit of this facility to reflect the installation of the equipment at this facility. The revised Title V permit shall include all of the emission limits and operating conditions in the proposed Permits to Construct for the above mentioned equipment. The facility shall be required to certify compliance with the revised Title V permit in addition to recordkeeping and mandatory reporting of any violations of the permit conditions. The revised Title V permit shall be enforceable by the AQMD, by the federal government, and by citizens.

The air quality analysis of this project and the proposed permit are available for public review during normal business hours at the AQMD, 21865 Copley Drive, Diamond Bar, CA. The proposed permit can also be viewed at <http://www.aqmd.gov/webappl/PublicNotices/Search.aspx> by entering the facility's ID number. Information regarding the facility's compliance history

submitted to the AQMD pursuant to California Health & Safety Code Section 42336, or otherwise known to the AQMD based on credible information, is also available from the AQMD for public review

Anyone wishing to comment on the proposed issuance of the revised permit should submit their comments in writing to the AQMD by **August 10, 2009**, at:

South Coast Air Quality Management District
Engineering and Compliance
21865 Copley Drive
Diamond Bar, CA 91765-4178
Attention: Jonathan Uhl, Air Quality Engineer

For additional information or to review the supporting documents, please contact Mr. Jonathan Uhl at (909) 396-2725, or juhl@aqmd.gov.

The public may request the AQMD conduct a public hearing on the proposed Title V permit by submitting a Hearing Request Form (Form 500-G) to Mr. Jonathan Uhl at the above AQMD address. The AQMD will hold a public hearing if there is evidence that the proposed Title V permit is incorrect or inadequate to ensure compliance with regulatory requirements, and that a public hearing will likely provide additional information that will affect the drafting and/or issuance of the permit. Public hearing request forms and the schedule of public hearings may be obtained from the AQMD by calling the Title V hotline at (909) 396-3013 or downloading from the Internet at <http://www.aqmd.gov/titlev>. The public must submit hearing requests to the AQMD by **July 27, 2009**, and must send a copy of the hearing request by first class mail to the facility contact person listed above.
